**THINGS
MOTHER USED
TO MAKE**

By LYDIA MARIA GURNEY

**A COLLECTION OF OLD TIME
RECIPES, SOME NEARLY ONE
HUNDRED YEARS OLD AND NEVER
PUBLISHED BEFORE**

New York 1914

AUTHOR'S FOREWORD

Good food depends as largely upon the judgment of the cook, as upon the materials used. These recipes and Household Hints are written very plainly, for those who have had no experience, no practice and possibly have little judgment.

They are very simple, not expensive, and if followed closely, will ensure success. It is the hope of the writer of this book that the young and inexperienced housekeeper may find it

a real help.

L.M. GURNEY.

INTRODUCTION

The Things Mother Used To Make consist of old fashioned recipes, which have been for the most part handed down by word of mouth from one generation to another, extending over a period of nearly one hundred years. The author, a New England woman, has during her life tested out in her own kitchen the greater part of these recipes, which represent the best cookery of those times.

This material was originally published in *Suburban Life*, where it obtained

such recognition as seemed to warrant its preservation in book form. The original material has accordingly been amplified, and it is here presented as one of the volumes in the series of Countryside Manuals.

EGGS

=To Boil Eggs=

Put your eggs into a bowl which can be sent to the table. Pour boiling water over them and let stand eight or ten minutes. It is essential that the water be boiling. This way of boiling eggs, though so simple, is going out of fashion, unfortunately, as it makes a wonderful difference in the appearance of the egg when broken open, and above all, in its digestibility. Eggs should never be boiled in any other

way for invalids.

=Eggs on Toast=

Toast as many slices of bread as desired. Butter well and pour over these just enough salted water to soften. Have ready a dish of boiling water. Stir it round and round with a spoon or fork, break the egg and drop into this swirling water. Remove from the water in from four to six minutes, as preferred, and place one on each slice of bread. Serve hot, with a dash of pepper, if liked.

=Plain Omelette=

2 Eggs 2 Teaspoonfuls of Water Pinch of Salt

Beat whites and yolks separately. Put together, salt, and add water. Pour onto a hot buttered frying pan and fry one side until it is puffed up, then turn half over and serve at once.

=Ham Omelette=

Make a plain omelette and add two-thirds of a cupful of chopped boiled ham. Pour into the hot frying pan and cook both sides.

=New England Poached Eggs=

4 Eggs 8 Tablespoonfuls of Milk Butter
the size of a Walnut 1/2 Teaspoonful of
Salt

Break the eggs into a sauce pan with
milk, salt and butter. Cook until they
thicken, stirring constantly. Remove
from fire before it wheys. Serve hot
with a dash of pepper.

* * * * *

=FISH=

=Clam Fritters=

1 Egg 1 Cupful of Milk 1 Cupful of
Bread-flour and a Little Salt

Beat the egg and half the milk, adding the flour gradually, to make the batter smooth. Salt, and add the last half-cupful of milk. Put one clam into one teaspoonful of batter and drop into boiling lard. Serve hot.

=Fish Balls=

1 Cupful of Hot Mashed Potatoes 1/2
Cupful of Shredded Cod-fish 2
Teaspoonfuls of Melted Butter 2

Tablespoonfuls of Milk

Put the fish into a piece of cheese-cloth, let cold water run over it, and squeeze dry. Mix ingredients all together. Take a little flour in the hand and roll half a tablespoonful of the mixture between the palms, to the size of a small peach. Fry in deep fat.

=To Boil a Lobster=

Have a large kettle on the fire with plenty of boiling water, deep enough to cover the lobster well. Put into this one cupful of salt, if you cannot get the seawater. When the water is galloping, put

in the lobster, head foremost, and keep it under water. Boil from twenty to thirty-five minutes according to size.

=To Dress Lobsters Cold=

Crack the shell of the claws carefully, remove the meat and place on a platter. Turn the lobster on its back, lay a heavy knife on the middle of the tail, all the way up to the body. Give it a gentle blow with a hammer, then with both hands turn back the shell and draw out the tail intact. Twist off the claws from the under side of the body and remove the body from the shell. Open and remove the stomach and sandbags.

Open the tail in length, halfway through, on the under side, remove the black vein from the body to the end. Dress with parsley and serve.

=Baked Mackerel=

1 Mackerel 3 Small Slices of Salt Pork
Salt to Taste

Split open the mackerel, remove head and insides, wash clean, and lay in a baking-pan on a well buttered paper or cheese-cloth, the skin side down. Spread over this slices of salt pork and a little salt. Bake in moderate oven for twenty minutes, or half an hour. This is

much nicer than fried mackerel.

=Oysters on Toast=

Toast as many slices of bread as you require. Wipe enough oysters to cover them and season with pepper and salt. Put a little hot water over the bread and place in a very hot oven, until the edges of the oysters curl. Serve hot, with a white sauce.

=Baked Shad=

Make a nice dressing of five or six

crackers, according to size of family (bread crumbs will do). Roll fine, or soak until soft in milk (water will do). Season to taste with poultry dressing, salt and add a small piece of butter. Wash the shad and stuff. Have a large sheet of white paper, well buttered, or a piece of cheese-cloth. Put into a baking-pan and set in the oven. Bake one hour. Spanish mackerel is fine baked in the same way.

=MEAT DISHES=

=A La Mode Beef=

3 Pounds of Beef 6 Onions 4 or 5
White Turnips Potatoes Salt

Take three pounds of a cheap cut of beef. Wash, put into an iron pan, sprinkle over it salt to taste. Pare six onions, more or less, according to size of family, and prepare four or five small white turnips sliced thin. Lay these around the meat, and pour over all a quart of cold water. Put into the oven and bake three hours. Pare potatoes enough for the family, putting them in an hour and a half before serving. This is a most delicious way to cook beef. As the water cooks away,

add more. Thicken the gravy, with flour wet with water, as you would with any roast meat.

=Beefsteak Pie=

2 Pounds of Beef (any cheap cut will do) 1 Onion 1 Tablespoonful of Salt

Cut the meat into small pieces; cover with cold water, salt and put into the oven; cut the onion into small pieces and add. Bake three hours in an earthen dish. Half an hour before serving, put over the top a crust, made of two cupfuls of flour, two heaping teaspoonfuls of baking-powder, one-

half teaspoonful of salt, and one
tablespoonful of lard. Wet with water
or milk, as for biscuits.

=Beef Stew with Dumplings=

Tablespoonful of Salt

Wash the meat, put into a kettle, cover
with cold water and boil four hours.
Add the salt, and more water, as it boils
away. Pare the onions, wash and slice

allowing two hours for cooking. Pare

Teaspoonfuls of Cream of Tartar 1

Teaspoonful of Baking Soda 1

Teaspoonful of Lard 1 Teaspoonful of

Salt 1 Glass of Water

scant cup of water.

=New England Boiled Dinner=

This consists of corned beef, white and sweet potatoes, cabbage, beets, turnips, squash, parsnips and carrots. The quantity depends upon the size of the family. Eight pounds of meat is sufficient for a family of eight. Boil the meat four hours, the beets three hours, the cabbage one and a half hours, squash and turnips three-quarters of an hour. Boil these in one kettle, all together. Beets, carrots and parsnips should be boiled with the skin on. Pare the potatoes, pare and slice the squash

and turnip. Pick the outer leaves from cabbage and cut in quarters. When done, pare parsnips and carrots. Drop the beets into cold water and slip the skin off with the hand.

=Brunswick Stew=

1 Chicken or 3 Pounds of Lamb 1
Onion 4 Potatoes 4 Ears of Corn Salt
and Pepper 6 Tomatoes

Cook the chicken or lamb until tender in two quarts of water. Take from the water and chop fine. Put back in the liquor, add the corn, cut from the cob, tomatoes, onion, and potatoes all

chopped, salt and pepper to taste. Cook two hours. In winter this can be made by using canned corn and tomatoes.

=How to Corn Beef=

A piece of fresh beef weighing seven or eight pounds is sufficient for a family of eight. Wash, clean and put it in an earthen dish, twenty-four hours before cooking. Cover with cold water, and add a cup and a half of ice-cream salt. When ready to cook it, remove from the brine and wash, placing it in cold water. Cook four hours.

=Corn Beef Hash=

Corned Beef

Milk

Potatoes

Salt and Pepper

Lump of Butter

Chop the meat fine, add the same bulk of potatoes or a little more. Put into a saucepan or spider a lump of butter the size of an egg, and a few spoonfuls of milk or water. When bubbling, put in the meat and potatoes, and a little salt and pepper, if you like. Stir for a while, then let it stand ten or fifteen minutes, until a crust is formed at the bottom. Loosen from the pan with a cake-

turner. Turn a warm platter over it. Turn pan and hash together quickly and serve. If you have a scant quantity, place it on slices of toasted bread, which have been buttered and wet with hot water.

=Breaded Pork Chops=

6 Chops 1 Cupful of Bread Crumbs 1
Egg Pinch of Salt 1/2 Cupful of Milk

Put the meat into a kettle, cover with cold water and boil slowly for three or four hours. Add salt and onions, cut fine. Put the tomato through a colander. Boil all together, and, as the water boils away, add more. Serve the meat hot. The liquor makes a delicious soup, thickened with two tablespoonfuls of flour.

=A Fine Way to Cook Veal=

2 Pounds of Veal, or according to size
of family

1 Egg

Bread Crumbs

Milk, Salt and Pepper

Cut the veal into small pieces, a good size for serving, and season with salt and pepper. Dip into the egg, which has been beaten light, then into the bread crumbs. Have a little pork fat (lard will do) in a frying-pan, and cook until brown. Set on the back of the stove and cook slowly for ten minutes. Cover with milk, and bake in the oven very slowly for one hour in a covered pan. The toughest veal, cooked in this way, will be as tender as chicken.

=Veal Patties=

1 1/2 Cupfuls of Boiled Rice 1 Cupful
of Veal 1 Teaspoonful of Salt 1/2
Teaspoonful of Poultry Dressing 1 Egg
1 Tablespoonful of Milk

Grind or chop the veal, salt and stir into the rice with the dressing; beat the eggs, add milk, and stir all together. Drop a tablespoonful spread out thin on the griddle, and fry as you would griddle-cakes. Chicken, pork, or lamb may be used instead of veal.

=MISCELLANEOUS=

=Boston Baked Beans=

Pick over and wash three cupfuls of small white beans; cover with cold water and soak over night. In the morning, put them on the stove, just to scald, not boil, in the same water. Pour off the water and put into an earthen bean-pot. Add seven teaspoonfuls of sugar, one teaspoonful of salt, one half-pound of salt pork, fat and lean mixed. Cover with water, and bake from eight A.M. until six P.M. As the water boils away add more.

Take four Boston crackers, split open, toast to a delicate brown on each side. Put these into a bowl, or earthen dish of some kind, pour over them a quart of boiling water. Let it stand on the back of the stove half an hour. When cold, give two or three teaspoonfuls to the patient. It is nourishing, and the stomach will retain it when absolutely

nothing else can be taken.

=Crust Coffee=

4 Pounds of Citron 3 Pounds of Sugar 3
Gills of Water 3 Lemons

Pare the citron and cut into pieces one inch square. Cover with cold water, adding a pinch of salt. Next day throw off this water and cover with fresh water, this time adding a pinch of alum. Slice the lemons, removing every seed, and boil until tender. Boil the sugar and water together, skim, then put into the syrup citron and lemon. Boil until it looks rich and transparent. Skim out the fruit into jars or tumblers, boil down the syrup for ten or fifteen minutes, and pour over the fruit. If jars are used, fill to the brim and seal while hot. This can be made in the summer from watermelon-rind. Cut off all the pink of the melon, pare, and prepare as you would citron.

It is really very nice.

=Currant Jelly=

Pick currants from the stems and wash clean. Put them into a kettle with a very little water and cook for ten minutes. Strain through a flannel bag. Use one pint of juice to one pint of sugar. Boil the juice fifteen minutes, add sugar and boil five minutes. Pour into tumblers or jelly moulds, and when cold cover with paraffine.

=Spiced Currants=

the spices in a cloth before boiling.

=Cranberry Jelly=

1 Quart of Cranberries 3 1/2 Cupfuls of
Sugar

Put one quart of cranberries on the
stove, with cold water enough to cover.
Boil until tender. Strain through a
colander. To this four cupfuls of juice
add three and a half cupfuls of sugar.

Boil, twenty minutes and turn into a mould which has been wet with cold water.

=Grape Conserve=

5 Pints of Grapes 8 Cupfuls of Sugar
1/2 Pound of Raisins 2 Oranges 1
Cupful of Nut Meats

Pick the grapes from the stems, wash, and separate the pulps from the skins. Stew the pulps and press through a colander. Put the raisins and oranges through the meat grinder, after removing seeds. Cook all together except the nuts. Add these about ten

minutes before removing from fire. Put into glasses and cover with paraffine. This makes eleven glasses.

=Grape Marmalade=

When making grape-juice, use the grape which is left after straining, for marmalade. Press through a colander, measure and use the same amount of sugar. Cook until it thickens and put into tumblers. When cold, cover with paraffine.

=Grape Preserve=

Pick from the stems and wash the amount of grapes desired. Squeeze the pulps from the skins. Put into a kettle with very little water and boil until the seeds loosen. Press through a colander. Put this with skins, weigh, and use three-fourths of a pound of sugar, for every pound of fruit. Cook all together until the skins are tender, usually about an hour. Seal in glass jars.

=Orange Marmalade=

1 Grapefruit 1 Whole Orange Juice of
Two Oranges 1 Whole Lemon Juice of
Two Lemons

Chop fruit fine or put through the grinder. Measure and put three times the amount of water. Let this stand till the next day. Boil ten minutes. Stand again till the next day. Measure and add equal amount of sugar. Boil until it jells. This will make eleven or twelve tumblerfuls. Pour into glasses while warm. When cold, pour over a thin coating of paraffine.

=Peach Marmalade=

When preserving peaches or quinces, wipe them very clean before paring, and save the skins for marmalade. Cook in water enough to cover well

and, when tender, press through a colander. Measure, and add the same amount of sugar. Boil half an hour, or until it thickens. Put into tumblers and cover with paraffine. This is nice for school sandwiches, or for filling for Washington pie or queen's pudding.

=To Can Peaches=

1 Quart of Peaches 1 Cupful of Sugar 2
Cupfuls of Water

Be sure to have the jars perfectly clean and warm. Glass covers are always preferable. Make a syrup of the sugar and water. Boil this hard for five

minutes. Set back on the stove and let it settle, then skim very thoroughly. Pare, cut in half, and remove the stones from the peaches. When the syrup comes to a boil, put in enough peaches to fill your jar, whatever the size. Boil until tender enough to pierce with a wisp. Take the fruit out carefully with a spoon and place in the jar. Fill the jar with the boiling syrup, being careful always to cant the jar as you pour it in. If you do this, the jar will never crack, as it is likely to do if held perfectly straight or upright. Always run around the inside of the jar with a silver knife, and you will have no trouble in keeping fruit. Seal while hot. The peaches may be canned whole, if preferred.

=Pickled Peaches=

4 Pounds of Sugar 1 Pint of Vinegar 1
Tablespoonful of Cloves 1
Tablespoonful of Allspice Stick of
Cinnamon

Boil the ingredients together for ten minutes before putting in the peaches. Cook as many peaches in this as possible, and have juice enough to fill up the jars. Tie the spices in a piece of cheese-cloth. Pears may be cooked in the same way.

Fill the jars with the fruit, all you can put in, then hold the jar slanting and fill with syrup to the very brim. Use whole pears, if preferred. If cut in halves, remove the core.

=Way to Pickle Pears=

1 Pint of Vinegar 3 Pounds of Sugar 6

Cinnamon 1/2 Tablespoonful of whole

=Quince Jelly=

Pare, core, and quarter the fruit, and boil in water enough to cover. When soft, take out the fruit and strain the syrup through a flannel bag, then return the syrup to the kettle and boil until perfectly clear, skimming constantly. Measure syrup, adding an equal quantity of sugar, and boil twenty minutes, removing the scum which rises to the surface. Pour into tumblers or moulds and set aside to cool; then pour over the top a covering of paraffine.

=Quince Marmalade=

Put the quinces, which were boiled in water for the jelly, in with the cores and skins. Cover with water and boil ten or fifteen minutes. Press all through a colander. Measure, and add the same amount of sugar. Set on the stove and boil fifteen minutes, being careful not to scorch. Put into tumblers and cover with paraffine.

=Quince Sauce=

Peel, core, and cut into quarters the quinces. Boil in clear water until tender. Weigh the quinces before cooking, and put into the water in which they have been boiled three-

fourths of a pound of sugar for every pound of quince. Boil five minutes and skim. Then put in the quinces and cook until of a dark amber color-for about an hour. As quinces are expensive, old-fashioned people used to put in one-fourth as much sweet apple or pear.

=Raspberry Jam, No. I=

Mash the berries, add equal parts of sugar, and let stand half an hour. Put on the stove in a kettle containing a half cupful of water, to prevent sticking. Boil until it thickens. Put into tumblers and cover with paraffine. Blackberries and strawberries used in the same way

are very nice.

=Raspberry Jam, No. 2=

Mash the berries, and use two-thirds as much currant juice as you have berries. Measure, and add the same amount of sugar. Cook all together until it jells. Put into tumblers and cover with paraffine.

=To Keep Rhubarb Through the Winter=

Fill preserve jars with cold water. Cut

the rhubarb into small pieces, as you would for a pie, and drop them into the jars. As they fill, the water will overflow. When full, screw the tops on the jars and set away. The water excludes the air, and the fruit, treated in this way, will keep for months. When required for use drain off the water and cook in the usual way.

=HOUSEHOLD HINTS OLD AND NEW FOR HOUSEKEEPERS YOUNG AND OLD=

=To Save Confusion in the Home=

"Plan your work, then work your plan."

Monday—Wash, if you have it done in

the house. If sent out, use that day for picking up and putting things in order, after the disorder of Sunday.

Tuesday—Iron.

Wednesday—Finish ironing and bake; wash kitchen floor.

Thursday, Friday—Sweep and dust, thoroughly.

Saturday—Bake, and prepare in every way possible, for the following day.

=Have in or Near Your Sink=

A handle dish cloth.

A wire dish cloth.

A cake of scouring soap.

A small brush for cleaning vegetables.

These articles are indispensable. Also have two cloths, which must be kept perfectly clean.

One for washing dishes.

One for washing sink.

=Homemade Shortening=

Do not throw away small pieces of fat from pork, lamb or steak. Put them on the stove, in a skillet or agate dish and cook them till there is nothing left, but scraps. Then pare a potato, wash clean, cut into thin slices and cook in the fat for a half hour to clarify it. Strain through a cloth. This will be good to fry doughnuts in and for all purposes, where shortening is needed, except for pie crust.

Pieces of fat, not fit for shortening can be saved in some old utensil and made into kitchen soap.

=To Make Tea and Coffee=

Always use freshly boiled water. Do not boil more than three or four minutes. This is very important, in making a good cup of tea or coffee. Never use water which has stood in the teakettle over night.

=A Use for Left-over Coffee=

Do not throw away the coffee you have left from breakfast. If you do not care for iced coffee for dinner, make a little coffee jelly, by the recipe on page 27.

=Never Throw away Old Underclothes=

Keep them for housecleaning, for washing windows and for washing lamp chimneys. Old pieces of calico, or flannel make good holders to use about the stove. Wash, boil and dry cleaning cloths when soiled, that they may be ready for use again.

=That Leaky Hot-Water Bag=

Do not throw away an old hot-water bag because it leaks. Fasten over the leak, a strong piece of adhesive plaster. Fill the bag with sand or salt and cover

with flannel. It will hold heat for a long time, and can be used instead of the water bottle.

=To Keep your Hands White=

Keep a piece of lemon in your bathroom or kitchen. It will remove stains from the hands.

=To Brown Flour=

Spread flour upon a tin pie plate, put it in a hot oven, and stir constantly, after it begins to brown, until it is all

colored. Keep always on hand. It is good for coloring and thickening gravies.

=Lemons and Fish=

Lemon juice makes a very grateful addition to all kinds of fish. Thin slices of lemon, with sprigs of parsley, around a platter of fish, makes a pretty garnish.

=To Try out Lard=

If you want good sweet lard, buy from

your butcher, leaf lard. Skin carefully, cut into small pieces and put it into a kettle or sauce pan. Pour in a half-cupful of water, to prevent burning, and cook slowly, until there is nothing left but scraps. Remove the scraps with a skimmer, salt it a little, and strain through a clean cloth, into tin pails. Be sure not to scorch it.

=How to Keep Eggs=

In the summer, when eggs are cheap, buy a sufficient number of freshly laid ones to last through the winter.

Take one part of liquid glass, and nine

parts of cold water which has been boiled, and mix thoroughly.

Put the eggs into a stone crock, and pour over them this mixture, having it come an inch above the eggs. The eggs will keep six months, if they are perfectly fresh when packed and will have no taste, as when put into lime water.

=Save your Old Stockings=

Old stockings are fine for cleaning the range. Slip your hand into the foot and rub hard, or place an old whisk broom inside. It will make the sides and front

of the range clean and shiny. In fact, you will seldom need to use blacking on these parts.

=When Washing Lamp Chimneys=

If you live in the country and use kerosene lamps, do not dread washing the chimneys. Make a good hot suds, then wash them in this, with a clean cloth kept for that purpose. Pour over them very hot or boiling water and dry with an old soft cloth. Twist a piece of brown paper or newspaper, into cornucopia shape and place over the chimneys to protect from dust and flies.

=To Remove Disagreeable Odors from the House=

Sprinkle fresh ground coffee, on a shovel of hot coals, or burn sugar on the shovel. This is an old-fashioned disinfectant, still good.

=To Lengthen the Life of a Broom=

Your broom will last much longer and be made tough and pliable, by dipping for a minute or two, in a pail of boiling suds, once a week. A carpet will wear longer if swept with a broom treated in this way. Leave your broom bottom side up, or hang it.

=To Prevent Mold on Top of Glasses of Jelly=

Melt paraffine and pour over the jelly after it is cold. No brandy, paper, or other covering is necessary.

=To Clean Nickel Stove Trimmings=

Rub with kerosene and whiting, and polish with a dry cloth.

=To Clean Zinc or Copper=

Wash with soap suds and powdered

bristol brick. When perfectly dry, take a flannel cloth and dry powdered bristol or any good cleaning powder and polish. You will be pleased with the result. I have tried this for forty years.

=How to Prevent Button Holes from Fraying=

When making button holes in serge or any material which frays, place a piece of lawn of two thicknesses, underneath and work through this.

Another way is to make four stitchings in the goods the length of the button

hole. Cut between these, leaving two stitchings each side of the hole.

=When Making a Silk Waist=

Stitch a crescent shaped piece of the same material as your waist under the arm. It will wear longer and when the outside wears out it looks neater than a patch. If the waist is lined, put this between the lining and the outside.

=To Make Old Velvet Look New=

Turn hot flatirons bottom side up. Rest these on two pieces of wood, or hold in your lap. Put over them a piece of wet cloth, then lay the velvet on this. Brush with a whisk broom. The steam from the wet cloth will raise the nap and take out the creases.

=Onion Skins as a Dye=

If you wish for a bright yellow, save your onion skins. They will color white cloth a very bright yellow. This is a good color for braided rugs, such as people used to make.

=To Remove Egg Stain from Silver=

Salt when applied dry, with a soft piece of flannel will remove the stain from silver, caused by eggs.

=Put a Little Cornstarch in Salt Shakers=

This will prevent the salt from becoming too moist to shake out.

=How to Color Lace Ecu=

If you wish for ecru lace and you have

only a piece of white, dip it into cold tea or coffee, until you have the desired color.

=To Keep Lettuce Crisp=

Put it into a paper bag and place right on the ice. It will keep a week in this way.

=To Keep Celery=

Do not put it into water. Wrap it in a cloth, wet in cold water and place directly on the ice.

=To Keep a Piece of Salt Pork Sweet=

Put it in a strong brine made of one quart of cold water, and two-thirds of a cup of salt.

=Save Potato-Water=

Pare potatoes before boiling, and then save the water, to mix your yeast bread with.

=A Use for the Vinegar Off Pickles=

When your pickles have been used

from your glass jars, do not throw away the vinegar. Use it in your salad dressing. It is much better than plain vinegar because of the flavor.

=Do not Allow a Child to Eat Fresh Snow=

This often looks clean and pure but fill a tumbler with it, cover to keep out the dust and then show it to the child, that he may see for himself, the dirt it contains.

=When Making Hermits or Cookies=

Instead of rolling and cutting as usual, drop the dough into a large iron pan. The heat of the oven melts them into one sheet. Cut them into squares or long narrow strips. It takes much less time, than the old way of rolling and cutting.

=To Clean a Vinegar Cruet on the Inside=

Put into it shot, pebblestones, or beans. Fill it with a strong soap suds, and one teaspoonful of bread soda or ammonia. Let stand an hour, shake well and often. Rinse with clean water.

=To Make Tough Meat, or a Fowl
Tender=

Put one tablespoonful of vinegar, into
the kettle while boiling.

=To Remove Black Grease=

Rub patiently with ether. It will not
leave a ring, like gasolene, and will
remove every trace of the stain.

=To Keep an Iron Sink from Rusting=

Wash with hot suds. When dry rub it

well, with a cloth wet with kerosene. Do this three or four times a week and your sink will look well, all the time.

=How to Add Salt to Hot Milk=

Salt will curdle new milk, so when making gravies, or puddings, put your salt into the flour, or with eggs and sugar, to add when the milk boils. Use a double boiler for milk gravies and gruels.

=To Soften Boots and Shoes=

Rub them with kerosene. Shoes will last longer, if rubbed over with drippings from roast lamb. Old-fashioned people always used mutton tallow on children's shoes.

=A Way to Cook Chops=

Pork or lamb chops are very nice, if baked in a hot oven. Turn them as they brown. It saves the smoke in the room.

=When Cooking Canned Corn=

Place it in a double boiler to prevent

scorching.

=Salted Almonds=

Shell the nuts and put into boiling water. When they have stood for fifteen or twenty minutes, the skin will slip off easily. When dry, mix a half-teaspoonful of olive oil or butter, and a quarter of a teaspoonful of salt, with a cupful of nut meats. Spread on a tin pan, and place in a hot oven. Bake fifteen or twenty minutes. Watch closely and stir several times, as they burn quickly. Treat peanuts in the same way.

=Before Washing Colored Clothes=

It is wise to set the color first, by soaking in a strong solution of cold salt water (one cupful of salt to half a pail of water). Soak two hours.

=To Remove Iron Rust from White Goods=

The old-fashioned way, still good, is to wet the place in lemon juice, sprinkle on it common table salt, and lay it in the sun. In these later days, there is on the market an iron rust soap, which removes the spot quickly, also an ink eradicator, sold by all druggists.

=How to Make Starch=

Two tablespoonfuls of starch should be made into a smooth paste with four tablespoonfuls of cold water. Pour over this three pints of boiling water, stirring rapidly all the time. Starch the garments, while they are still wet. In the olden days, people made starch of flour in the same way, for linen and gingham dresses, as it was less expensive and thought to be just as good for colored clothes.

=When you Go Away from Home for a Few Days=

Plan your meals before leaving. This simplifies matters for the one left in charge, and is often found to be of importance financially.

=The Proper Way to Sweep a Room=

Dust the furniture and put it in another room. Dust bric-a-brac and put on the bed if you are sweeping a sleeping room, if another room put them on the table, or in an adjoining room. Brush the draperies, take down and lay on the bed or table. Cover these and bric-a-brac with a sheet. Wet a newspaper, tear into small pieces and spread on the rug or carpet. Now you are ready for

sweeping. If the floor is carpeted, sweep all dirt to the center of the room. Sweep the corners with a small whisk broom. Move every piece of furniture lest there be dirt left underneath. Open the windows before sweeping. When the dust is settled take a pail of warm water, put in a tablespoonful of ammonia, then with a clean cloth wrung from this wipe the window glass, mirror and pictures; polish with dry cloth. Wipe all finger marks from doors and mop boards.

Now take a pail of clean water, with ammonia, and with a small scrubbing brush go over the rug or carpet, to remove dust and brighten the colors.

Replace furniture, bric-a-brac and draperies and your room will be sweet and clean. With care, once in two or three weeks, will be often enough to do this.

=When Baking Cup Custards=

Set them into a pan of hot water. When you remove from the oven, place them in a pan of cold water, to prevent longer cooking.

=When Using Currants and Raisins=

Mix a little dry flour with currants and raisins before adding them to cakes or puddings. It will keep them from falling to the bottom.

=Try Baking Beets, Instead of Boiling Them=

They are much sweeter. Three or four hours is necessary, according to size.

=When Making Grape Juice or Jelly=

Before adding the sugar, strain through a flannel bag. It will be much clearer.

=When Sewing Braid on a Dress=

Slip a piece of pasteboard three or four inches long, into the hem. You can sew more quickly, and your stitches will not show on the right side.

=To Skin Beets=

When you remove beets from the kettle, plunge them into a dish of cold water. The skins will slip off easily with the hand. Never cut or pare beets before cooking.

=A Fine Way to Keep Cut Roses=

Immerse them at night in a pail of cold water, blossoms down.

=To Keep Carnations=

Put a little salt in the water, which should be changed each morning, and cut the stems a little each time.

=When Pies are Ready to Bake=

Put little dabs of lard, on the top crust, then hold it under the faucet, letting cold water run over it.

=A Way to Make Pies Brown and Shiny=

Just before putting a pie in the oven, brush over the top with milk, using a soft brush or a clean piece of cheese cloth.

=When Threading a Needle=

Place a piece of white paper under the eye. You will be surprised at the ease, with which you can thread it.

=Make your Own Baking Powder=

Get your grocer to weigh for you one pound of cream of tartar, and one-half pound of bread soda. Sift these together nine times in a flour sifter. Put in a tin can, and it is ready for use.

=To Prevent Children from Losing Mittens=

Sew strongly to each mitten, four or five inches of narrow black ribbon (use a colored one if you prefer). Sew the other end of ribbon to the coat sleeve. The child can remove mittens at any time without losing them and always know where they are.

=Teach a Child to Hang up his Own Coat and Hat=

Have some hooks, low down in the closet or kitchen where a child can reach them easily, to be used only by himself.

=To Keep your Own Umbrella=

Take a piece of narrow white tape, three or four inches long. With a glass pen, or a new clean steel one, and indelible ink, write your name upon it. Sew this to the inside of the umbrella.

=To Wash a White Silk Waist, or a
Baby's Bonnet=

Use cold water and white soap. Hot
water will turn white silk yellow.

=When Ironing Embroidery=

Place it right side down on a piece of
soft flannel, ironing on the wrong side.
If flannel is not at hand, try an old
turkish towel.

=To Wash Small Pieces of Lace=

Put in a horse radish bottle and pour over them, strong soap suds, good and hot, and shake well. Let stand awhile and shake again. Rinse in clear, warm water, by shaking. Dry on a clean cloth in the sunshine.

=Never Throw away Sour Milk=

It is excellent for graham bread, gingerbread, brown bread, griddle cakes, and doughnuts, also biscuit.

You can make a delicious cottage cheese of a very small quantity.

Set the milk on the back of the stove, in

an agate dish. Let stand until the whey separates from the curd. Strain through a cloth, squeezing the curd dry. Put in a little salt, a small piece of butter, and a little sage if desired. Press into balls and serve.

=Mark New Rubbers=

Take a pointed stick—a wooden skewer from the butcher's is best—dip it into ink and write the name, on the inside.

=Economical Hints=

Save small pieces of soap in the bathroom, by placing in a cup or small box, until you have a cupful. Add a little water and boil a few minutes; when nearly cool, press with the hands, and you have a new cake of soap.

Do not throw away the white papers around cracker boxes. They are good to clean irons and will save buying ironing wax. If irons are dirty put a good layer of salt on newspaper and rub the irons back and forth.

Save even the coupons on your soap wrappers. You can get a silver thimble for your mending bag with them, if nothing more.

Save your strong string, to wrap around packages going by parcel post. Also fold nicely for further use your clean wrapping papers. Make a bag of pretty cretonne, hang in the kitchen or cellar way, to keep the string and wrapping paper in. You will find it very convenient.

Do not throw away small pieces of bread. Save them for plum pudding, queen's pudding, or dressing for fish or fowl. If broken into small pieces and browned in a hot oven, it is very nice to eat with soups. Or, dry well, roll fine and keep in a glass jar, to be used for breaded pork chops, croquettes, or oysters.

=To Mend Broken China=

Stir into a strong solution of gum arabic, plaster of Paris. Put this on each side of the china, holding together for a few minutes. Make it as thick as cream.

=To Clean Old Jewelry=

Wash in warm water containing a little ammonia. If very dirty rub with a brush. This is very good also for cleaning hair brushes and combs.

=Dish Washing Made a Pleasure=

First of all, remove all refuse from the dishes. Place them near the sink, large plates at the bottom, then the smaller ones, then saucers. Have a large pan full of very hot water. Make a good soap suds by using a soap shaker. Wash the tumblers and all glassware first, and wipe at once. Use a handle dish cloth (which can be bought for five cents), for these, as the water will be too hot for the hands.

Wash the silver next. Have a large pan, in which to place the clean dishes, cups and bowls first. When all are washed pour over them boiling or very hot water, and wipe quickly. Pans and kettles come last. Always have a cake

of sand soap or a can of cleaning powder, for scouring the pie plates and bottoms of kettles. It is very little work to keep baking tins and kitchen utensils in good condition, if washed perfectly clean each time they are used.

Wash the dish towels, at least once every day, and never use them for anything else. With clean hot water, clean towels, and plenty of soap dishwashing is made easy.

If you live in New England, your sink will be in front of a window. Be sure and plant just outside of this window nasturtiums, a bed of pansies, morning glories and for fall flowers, salvia.

These bright blossoms will add to your pleasure while washing dishes.

=A Space Saver=

If you are crowded for space in closet, kitchen or pantry buy a spiral spring, such as is used for sash curtains. Fasten the end pieces to the back of the door, and stretch the spring from end to end. You now have a fine place to hang towels, stockings or neckties, or if used in a pantry, to keep covers.

=Another Space Saver=

If you have no closet in your room, get a board, nine inches wide, and three or four feet long. Put it in the most convenient place in your room on two brackets. Stain it the color of your woodwork. Screw into the under side of the board, wardrobe hooks. Now get a pretty piece of cretonne or denim, hem top and bottom, and tack with brass headed tacks to the shelf, having it long enough to come to the floor, and around the ends of the board. Use the top for a book shelf or hats.

=If the Freshness of Eggs is Doubtful=

Break each one separately into a cup,

before mixing together. Yolks and whites beaten separately, make a cake much lighter than when beaten together.

=When Bread Cooks Too Quickly=

When your bread is browning on the outside, before it is cooked inside, put a clean piece of brown paper over it. This will prevent scorching.

=To Remove the Odor of Onions=

Fill with cold water kettles and sauce

pans in which they have been cooked adding a tablespoonful of bread soda and the same of ammonia. Let stand on the stove until it boils. Then wash in hot suds and rinse well. A pudding or bean pot, treated in this way, will wash easily. Wood ashes in the water will have the same effect.

=Never Leave a Glass of Water or Medicine, Uncovered in a Room=

This is very *important*. Water will absorb all the gases, with which a room is filled from the respiration of those sleeping in the room.

=Weights and Measures=

4 Teaspoonfuls equal 1 tablespoonful of liquid.

4 Tablespoonfuls equal half a gill.

2 Coffee-cupfuls equal 1 pint.

2 Pints equal 1 quart.

4 Coffee-cupfuls of sifted flour equal 1 pound.

1 Quart of unsifted flour equals 1 pound.

1 Pint of granulated sugar equals 1 pound.

1 Coffee-cupful of cold butter pressed down equals 1 pound.

An ordinary tumbler holds the same as a coffee cup.

It is well to have a tin or glass cup, marked in thirds or quarters for measuring.

=When to Salt Vegetables=

Every kind of food and all kinds of vegetables need a little salt when cooking. Do not wait until the vegetables are done. Salt the water they are boiled in after they begin to boil.

=What to Serve With Meats=

Roast Beef and Turkey

Squash, turnips, onions and cranberry sauce.

Roast Pork

Spinach, onions and apple sauce.

Roast Lamb

Mint sauce.

Roast Mutton

Currant jelly and vegetables.

With all kinds of meat and fowl pickles are always good. Make your own pickles, after recipes found in this book.

=The Length of Time to Cook Meats=

Lamb

Roast a leg of lamb three hours. Wash clean, sprinkle over it a little flour and salt and put into a pan, with cold water. While it is cooking, take a spoon and pour over it the water from the pan, three or four times.

Veal

Roast veal three hours, treating it the same way as lamb. When you have removed it from the pan, make a smooth paste, by wetting two or three tablespoonfuls of flour with cold water, and stir into the water left in the pan. Pour in more water, if the size of your family requires it.

Beef

Roast beef requires fifteen minutes for each pound. Do not salt beef, until you take it from the oven.

Ham

Boil a ham of ordinary size three hours. Let cool in the water in which it is boiled. It is very nice to remove the skin, while warm, stick cloves in the outside, sprinkle over it a little vinegar and sugar and bake for one hour.

Sausages

Sausages are very nice, baked in a hot oven twenty minutes. Prick with a fork to prevent bursting. Do this too, if fried.

Corned Beef

Should boil four hours.

Chicken

A chicken will cook in one hour and a half. A fowl requires an hour longer. Don't forget to put in one tablespoonful of vinegar to make tender.

Turkey

A ten pound turkey needs to cook three hours, in a slow oven.

=The Length of Time to Cook

Vegetables=

Onions

Boil one hour. Longer if they are large.

Cabbage

Requires one hour and a half.

Parsnips

Boil two or three hours according to size.

Carrots

Wash, scrape, and boil one hour.

=When Paring Tomatoes=

Put them into very hot water and the skin will come off easily.

be bound by the terms of this agreement, you may obtain a refund from the person or entity to whom you paid the fee as set forth in paragraph 1.E.8.

1.B. "Project Gutenberg" is a registered trademark. It may only be used on or associated in any way with an electronic work by people who agree to be bound by the terms of this agreement. There are a few things that you can do with most Project Gutenberg-tm electronic works even without complying with the full terms of this agreement. See paragraph 1.C below. There are a lot of things you can do with Project Gutenberg-tm

electronic works if you follow the terms of this agreement and help preserve free future access to Project Gutenberg-tm electronic works. See paragraph 1.E below.

1.C. The Project Gutenberg Literary Archive Foundation ("the Foundation" or PGLAF), owns a compilation copyright in the collection of Project Gutenberg-tm electronic works. Nearly all the individual works in the collection are in the public domain in the United States. If an individual work is in the public domain in the United States and you are located in the United States, we do not claim a right to prevent you from copying, distributing,

performing, displaying or creating derivative works based on the work as long as all references to Project Gutenberg are removed. Of course, we hope that you will support the Project Gutenberg-tm mission of promoting free access to electronic works by freely sharing Project Gutenberg-tm works in compliance with the terms of this agreement for keeping the Project Gutenberg-tm name associated with the work. You can easily comply with the terms of this agreement by keeping this work in the same format with its attached full Project Gutenberg-tm License when you share it without charge with others.

The Foundation makes no representations concerning the copyright status of any work in any country outside the United States.

1.E. Unless you have removed all

references to Project Gutenberg:

terms of the Project Gutenberg License included with this eBook or online at www.gutenberg.org

1.E.2. If an individual Project Gutenberg-tm electronic work is derived from the public domain (does not contain a notice indicating that it is posted with permission of the copyright holder), the work can be copied and distributed to anyone in the United States without paying any fees or charges. If you are redistributing or providing access to a work with the phrase "Project Gutenberg" associated with or appearing on the work, you must comply either with the requirements of paragraphs 1.E.1

through 1.E.7 or obtain permission for the use of the work and the Project Gutenberg-tm trademark as set forth in paragraphs 1.E.8 or 1.E.9.

1.E.3. If an individual Project Gutenberg-tm electronic work is posted with the permission of the copyright holder, your use and distribution must comply with both paragraphs 1.E.1 through 1.E.7 and any additional terms imposed by the copyright holder. Additional terms will be linked to the Project Gutenberg-tm License for all works posted with the permission of the copyright holder found at the beginning of this work.

Gutenberg-tm License as specified in paragraph 1.E.1.

1.E.7. Do not charge a fee for access to, viewing, displaying, performing, copying or distributing any Project Gutenberg-tm works unless you comply with paragraph 1.E.8 or 1.E.9.

- You pay a royalty fee of 20% of the gross profits you derive from the use of Project Gutenberg-tm works calculated using the method you already use to calculate your applicable taxes. The fee

is owed to the owner of the Project Gutenberg-tm trademark, but he has agreed to donate royalties under this paragraph to the Project Gutenberg Literary Archive Foundation. Royalty payments must be paid within 60 days following each date on which you prepare (or are legally required to prepare) your periodic tax returns. 1.E.9. If you wish to charge a fee or distribute a Project Gutenberg-tm electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from both the Project Gutenberg Literary Archive Foundation and Michael Hart, the owner of the Project Gutenberg-tm trademark. Contact the Foundation as set forth in Section 3 below.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread public domain works in creating the Project Gutenberg-tm collection. Despite these efforts, Project Gutenberg-tm electronic works, and the medium on which they may be stored, may contain "Defects," such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

**1.F.2. LIMITED WARRANTY,
DISCLAIMER OF DAMAGES -**
Except for the "Right of Replacement
or Refund" described in paragraph
1.F.3, the Project Gutenberg Literary
Archive Foundation, the owner of the
Project Gutenberg-tm trademark, and
any other party distributing a Project
Gutenberg-tm electronic work under
this agreement, disclaim all liability to
you for damages, costs and expenses,
including legal fees. **YOU AGREE
THAT YOU HAVE NO REMEDIES
FOR NEGLIGENCE, STRICT
LIABILITY, BREACH OF
WARRANTY OR BREACH OF
CONTRACT EXCEPT THOSE
PROVIDED IN PARAGRAPH 1.F.3.**

YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you

received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of

replacement or refund set forth in paragraph 1.F.3, this work is provided to you 'AS-IS', WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to

make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg-tm electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg-tm electronic works, harmless from all liability, costs and

expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a) distribution of this or any Project Gutenberg-tm work, (b) alteration, modification, or additions or deletions to any Project Gutenberg-tm work, and (c) any Defect you cause.

Section 2. Information about the Mission of Project Gutenberg-tm

Project Gutenberg-tm is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new

computers. It exists because of the efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg-tm's goals and ensuring that the Project Gutenberg-tm collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg-tm and future generations. To learn more about the Project Gutenberg Literary Archive Foundation

and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541.

Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's principal office is located at 4557 Melan Dr. S. Fairbanks, AK, 99712., but its volunteers and employees are scattered throughout numerous locations. Its business office is located at 809 North 1500 West, Salt Lake City, UT 84116, (801) 596-1887. Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg-tm depends upon and cannot survive without wide spread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine readable form accessible by the widest array of equipment including outdated equipment. Many

small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States.

Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit

www.gutenberg.org/donate

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg

Web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate

Section 5. General Information About Project Gutenberg-tm electronic works.

Professor Michael S. Hart was the originator of the Project Gutenberg-tm concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg-tm

eBooks with only a loose network of volunteer support.

Project Gutenberg-tm eBooks are often created from several printed editions, all of which are confirmed as Public Domain in the U.S. unless a copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our Web site which has the main PG search facility:

www.gutenberg.org

This Web site includes information about Project Gutenberg-tm, including how to make donations to the Project

Gutenberg Literary Archive
Foundation, how to help produce our
new eBooks, and how to subscribe to
our email newsletter to hear about new
eBooks.
